Democrats, Whigs, Review of Portsmouth Markets, for the

week ending April 29, 1850. GENERAL REMARKS :- River since our last has been gradually rising and is now at a good

Eastern merchants are yet retuning home and boats seem well filled with freights and passengers. Owing to bad roads, and much rain the past week, we note a duller week for business than before. We append a few of the transactions of our

market. FLOUR AND GRAIN.-Prices of Flour are tend-

ing upward. Market opened early in the week at \$5,000 for "Union Mills," and closed at \$5,12 in lots. Wheat is worth \$1,00 for best and some few loads are arriving by canal. Other transactions in flour and grain are limited. We note an spward movement in corn. No Corn Meal in market, except at retail.

SUGAR AND MOLASSES .- Sales of sugar by hhd. from 42 to 54. Sales of molasses in lots, 25 to 26, with full stocks.

Correc.-A more active inquiry is noted for coffee. Sales during the week have averaged at TO4.

Rick .- Sales at 42 to 54.

PROVISIONS .- The demand for Bacon is well custained. Sales of shoulders at 44 to 44 cash. Sides 51, and hams 61. No other sales

CHEESE .- Recent new arrivals sell at 74. WHISKEY .- We note firm feeling in Whiskey, owing to advance in corn. Sales during the week at 18 to 194.

Inon and Nails .- These important features in our market, have but little variation in prices. With good supplies and constant manufacturing, orders of any magnitude can always be filled.

FREIGHTS .- Rates of freight both by canal and river remain unchanged. Ample facilities for transhipment by canal and river can now be formed.

The late Disaster.

The following remarks from the Cincinnati Enquirer, we incline to think do not reflect too severely upon the officers of the illfated Belle of the West. Other rumors are afloat which, if true, should consign them to a reion's late. Whether they are so, or not. or whether any blame can attach to the officers. we believe that in numberless cases a recklessness prevails which ought to be indignantly frowned upon by the public .-There were hundreds of human beings who, in the utmost confidence, had consigned their lives and property to the care of others. The responsibility resting upon officers in such cases is very great and we fear seldom sufficiently realized:

We perceive that excuses are already being manufactured for the officers who comthe late catastrophy, by which so many passengers on her lost their lives. One paper says, "all the officers deserve well." If it says, "all the officers deserve well. had added, "to be sent to the Penitentiary for life," it would, in our opinion, have come nearer expressing a just judgment. We do not know when we have heard of more criminal negligence, or conduct more indicative of unfitness to command a bost, than that which characterized the proceedings of the officers of the Belle after she was discov-ered to be on fire in her hold. There was but one course for the officers to pursue in that emergency, and that was, to close the hatches, arouse the passengers and land them before the hatches were again opened. Had that course been pursued, no lives whatever would have been lost. The flames could not have broken from the hold of the boat under an hour or two, at the least, by which time all the passengers would have been safe on shore.

But from what we have heard, instead of closing the hatches immediately and running the boat to the shore, the hatches were raised. the hose [in part] got, and the fire attempted to be put out; and that it was only when a portion of the hose could not be found, and the fire could not thereby be reached, that the pilot was told to put the boat ashers. boat ashore—only when it was found that there were no hopes of saving the boat by means of the hose was the pilot directed to make for the shore, and the passengers warned to save themselves. Such is the account we have received. We think this case merats a judicial inventigation, and we trust the officers may not escape without it. We do not know that more could be made out of it, than that the officers was incompetent for their places—not men of sufficient coolness and redgment to command a boat carrying cattle, let alone human beings; yet we think it preper that the facts should be authentically ascertained to be used as instruction or warning to others.—Ciucinnati Enquirer. boat ashere—only when it was found that

The British Treaty.
WASHINGTON, April 23, 1850.
The treaty which has just been concluded between Sir Henry Bulwer and our Government, was yesterday sent to the Senate, with a message from the President and accompanying documents. The latter are understood to embrace the correspondence between the two contracting

Charge D'Affaire to Sardinia.

A: C. Kinney, editor of the Newark Daily Advertiser, was confirmed by the Senate as Charge D'Affairs to Sardinia.

Several postmasters and consule were like wise confirmed.

We learn by a passenger, direct from Cincinenti, that, as the western train of cars from Springfield to the former place was junder way, on Sunday last, one of the passengers was thrown from the platform and instantly killed. Our informant did not learn the name of the unfortunate in dividual.—Ancient Metropolis.

Eggs are sold by natural, set recent experiments in the world here about that a difference of nine and a last particular he found in one dozen of eggs enigh not with another, the planest weight bring twenty-four-times, and the lowest four-teer one indi. Thethe one case a fraction over cheren eggs would could also diverge weight of a dozen, and in the other it would require over eighteen cirgs to reach the proper weight. Fet the price for both by the mode of selling was the same

Brandreth's Pills.

The Laborer, tired and discontented with his lot, and craving some stimulants, hus taken Brandreth's Pills, and soon his unnatural appetites have been corrected, and his health being fully restored, contentment, like a refreshing sleep, has once more visited him, and his family and friends, seeing the change have rejoiced in the wondrous power of Brandreth's

The Mechanic, whose occupation forbids exercise, soon becomes sick and emsciated, his nerves are unstrung, and his system deranged; but let him take these Pills, and they will make him a new being, almost as fresh and vigorous as a young man in the first flush of sanguine youth.

Woman, whose system is subject to derangements, should remember that health is always. within her reach, by taking a few doses of Brandreth's Pills; and with health, will come beauty, cheerfulness and happiness. In fact, they are the longest known, have been most considered, and are the best understood of all the medicines of the day. Their action har-monizes with the condition of the body. If the bowels are merely costive—if it is only some irregularity of diet that requires correction, two, three, or four Pills, taken at night, or any time during the day, will soldom be felt after they are swallowed, until they produce their known effect. But should there be crude matters in the circulation, or any undigested food in the bowels, or putrid, acid bile in the region of the heart or liver, or in any part of the viscera, then the pills of Dr. Brandreth may occasion some slight inconvenience; but nothing in comparison to the great good they do in removing the Douth-principle, out ofp the system .- For, when we are born, we bring into the world our life-principle, and also that which must ultimately terminate our being.

The parents who are in the habit of using Brandreth's Pills, display, in their children, justness of form, a clearness of complexion, a goodness of disposition, a healthfulness of habit, and brightness of perception, which delights the beholder. And all because the blood of of these sensible parents is kept pure; because, when they suffer from pain in any part of the body; whether the head or feet, in the cheat αrkidneys, or in the bowels; they consider it an admonition that the body calls for a vegetable cleausing. Even inflamation does not frighten the mr they look upon it as a salutary affort of nature to throw out from the blood those matters which have become irritating and burtful Por Hale by the following Agents.

Metallic Fire and Weather Proof Paint.

Metallic Fire and Wenther Proof Paint.

THIS justly celebrated and extraordinary Metallic substance has now been before the public for several years, and has given entire satisfaction to all who have used, or had it applied on their work, becoming as it does, as hard as the hardest kind of stone, and perfectly impervious to fire or water. This paint is now extensively used for the bedies and roofs of brick, stone and plaster houses, barns, railroad depots and steambeats. It is also a superior article for machinery, castings, dec., besides being the best of paint for carriage work, as it is susceptible of a high polish, and will never crack. In short, it is the cheapest and beat preservative from fire or water ever offered to the public.

The undersigned would inform the public

the publice.

The undersigned would inform the public that they are still continuing to manufacture at Brooklyn, Cuyahoga Co. O., and are prepared to supply orders large or small.

The genuine article can be had Wholesale or Retail at J. L. McVey & Co., Portsmouth, O a Seaton & Sharp, Mayaville, Ky.; and in most of the principal towns throughout the United States.

HALLO STRANGER! SAY WHERE did you buy that large wagon load of Groceries? I bought it at W. S. BROWN'S, of course, where every body goes to got bargains. He don't try to get up a breeze about selling at cost and carriago, or Eastern wholesale prices; as some on 'em do, but he offers his groce-ries so deuced low, that you can almost get o load for nothing, and trimmings thrown in !! Positive fact, go and see, and a few more left of the same sort, which were received per Steamboat United States, and

will be sold lower now than will again be offered this year. As a criterion to go by; his stock consists in part as follows :

108 Hhds. prime N. O. Sugar; 500 Bbls; of hew Molasses, Cypross Cooperage;
100 Bbls. Sugar-house Motasses;
25 Drums of Codfish; 75 Boxes Raisins;
